

Zaber Technologies Inc.

Software Developer

Zaber Technologies (www.zaber.com) is hiring a Software Developer.

This is a full-time position with flexible hours. The Software Developer will work with the IT team and other staff. You will be an ideal candidate if you love writing high-quality software and seeing your work improve your colleagues' lives.

Requirements

- 5+ years of development experience
- Experience with a variety of programming languages, platforms, and frameworks (OpenERP, LAMP and Python are desirable)
- Able to work collaboratively with team-members, sharing responsibility and work
- Able to work independently making decisions balancing the team's capacity and cost with our customer-centric philosophy

Responsibilities

- Working with internal users to understand their needs and implement improvements and fixes to internal OpenERP system using Python
- Assisting with development of a new front end for ERP using modern web application frameworks (e.g. Flask, Backbone.js) and internally developed technologies
- Collaborating in decision making processes that set the direction of the department
- Assisting in the documentation of all of the above, including writing user manuals for internal users

About Us

Zaber Technologies is an established and steadily growing employee-owned company that designs, manufactures, and sells precision motion control equipment for high-tech markets around the world.

We strive to create an open, friendly, and high-achieving work environment. Our staff are progressive, enthusiastic individuals whose hobbies and interests are reflected in the work we do. Some aspects of Zaber that our employees especially enjoy include the people, the sense of community, flexible hours, level of employee engagement, employee-organized group activities and opportunities to learn. Most of us cycle, bus, or carpool to work and put in extra effort to make sustainable choices. Last, but not least, our office has several friendly dogs.

How to Apply

1. If you are viewing this posting on a website other than Zaber's, you may want to visit www.zaber.com/careers to confirm that it's still open. You may also see other postings there that are of interest.
2. Email your application to careers@zaber.com.
3. As the subject of your email, use "Application for Software Developer Position from <your name>".
4. In the body of your email, indicate how you heard about this posting.
5. Attach a cover letter and resume to your email in one file in PDF format (for bonus points, name the document "your-name-application.pdf").
6. In your cover letter, please describe an interesting software project you undertook recently. This can be something done at work, but we would prefer to hear about a
